WSDA Pesticide Recertification Credit Eligible Training

Nov 3, 4, 5 & 6 - [70th Annual Weed Conference](#)

Due to COVID-19 restrictions, the conference will be held online between 9am and 12pm on November 3rd thru 6th.

This **FREE** event will allow those interested to accrue up to 12 WSDA recertification credits while learning about topics ranging from the Asian Giant Hornet integrated pest management to disease control in turf. Only 1,000 spots are available so register ASAP.

WSU Extension is offering Pesticide Safety Education Webinars suitable for pesticide applicators in turf, landscapes, agriculture, rights of way, industrial areas, and more. These webinars are appropriate for those interested in earning Pesticide Recertification Credits, as well as those preparing for the initial certification exams. Interested parties may request to sponsor a group-viewing session. These programs are offered **FOR A FEE**.

Please visit WSU Extension [Urban IPM and Pesticide Safety Education](#) for more information.

Continuing Education Training

All 2020 King County Noxious Weed Webinars are now available for viewing on YouTube. [Noxious Weeds and Invasives Training](#), [Lake Weed Watcher Training](#), and their [Invasive Knotweed Control Workshops](#) are available to watch on demand.

Nov 3, 4, 5 & 6 - [PNW Inland Pasture Calendar Training Webinar](#) offered by WSARE Professional Development Program.

[Xerces Classroom for Youth Series](#). The Xerces Society has several short educational videos for youth audiences that cover really fascinating topics sparking interest in invertebrate conservation, pollinator biology, bees, fresh water mussels, etc. Great for teachers and homeschoolers alike!
